1. [REDACTED] Comment. Report proves that other information on extensive Czech maneuvers held in the Cheb area in the fall of 1953 is incorrect.
2. [REDACTED] Comment. A previous report [REDACTED] mentioned an AAA unit quartered in this barracks installation. [REDACTED] Armored vehicles are reported in this installation for the first time.
3. [REDACTED] Comment. This installation is reported for the first time and is believed to quarter another AAA unit. From the training of dogs, it is concluded that the installation also quarters a police or border guard detachment.
4. [REDACTED] Comment. The officer candidate school is reported for the first time. A previous report [REDACTED] mentioned an officer candidate school for airborne troops in Mor Ostrava. It is very unlikely, however, that such a school should be located in the center of the industrial area.
5. [REDACTED] Comment. The barracks installation on the northern perimeter of the city quarters the 36th Mecz Regt. of the 14th Mecz Div, which is confirmed up to May 1953. [REDACTED]
6. [REDACTED] Comment. The PS detachments are believed to belong to the Decin PS brigade.
